REYNOLDS FITNESS SPA BEXLEY

CLASS DESCRIPTIONS

BODYWORKS

Bodyworks is a low impact fitness class. Focusing on boosting endurance, strength and power whilst ensuring that we are catering for each individual's needs. Keeping muscle and fitness levels high is important in all stages of life, especially as we start to get older.

AQUA

Aqua is a great low-impact session in the pool. This class is designed to improve flexibility, range of motion, strength, muscle tone and cardiovascular endurance while using the resistance of the water to cushion the feet, knees and back.

BARZ

Barz is a fast-paced, barbell-based workout that's specifically designed to help you get lean, toned and fit. It uses a combination of motivating music, and scientifically proven moves to help you achieve these targets more quickly than you would working out on your own.

CIRCUITS

In a circuits class, you move round the room in small groups trying different exercises and activities for short periods of time, taking on cardio, resistance and strength training activities at various stations.

CORE

This class is designed to build core muscle groups while improving posture through performing a variety of exercises that strengthen the abdomen and back muscles

KEISER

Feed off the incredible energy in the room with a combination of endurance and strength building intervals. With a mix of fast sprints and heavy climbs all timed to the beat of the music, you'll be counting down the hours till you're back in the saddle once again. Keiser Cycling is a 45 minute cycle, whilst Express Keiser is 30.

KETTLEBELLZ

Kettlebellz is a high-intensity-ballistic workout that can help meet your toughest fitness goals. It combines functional, compound exercises such as "the swing," "the clean" and "the press" that will work multiple muscle groups.

LEGS BUMS & TUMS

Shape up by targeting your glute muscles, thighs and abdominals in this challenging conditioning workout. Isolating each body part helps to develop tone and definition

MEDITATION

Meditation can produce a deep state of relaxation and a tranquil mind. During meditation, you focus your attention and eliminate the stream of jumbled thoughts that may be crowding your mind and causing stress.

MOVEMENT MIX

Great for mind, body and soul. Come and move and dance to classic and current songs. Sing too if you like!

PILATES

Pilates is a form of exercise which concentrates on strengthening the body with an emphasis on core strength. This helps to improve general fitness and overall well-being. Similar to Yoga, Pilates concentrates on posture, balance and flexibility

POWER

In Power we will be focusing on our functional strength and power. Functional fitness training is a type of strength training. These exercises equip you for the most important type of physical fitness, the kind that preps you for real-life, like bending, lifting, pushing, pulling, and squatting. Combined with explosive training to hone our fitness levels and burn calories.

REMiT

REMiT Stands for Reynolds Effort Monitored Intensity Interval Training. Watch your fitness improve class on class as we focus exercise on effort rather than fitness level. We will be working in target zones based on heart rate, helping us focus on developing endurance, strength and heart health. We recommend that you utilise a MyZone belt during this class. The perfect class for those wanting to improve their fitness level.

TOTAL BODY WORKOUT

A total body conditioning session using light weights, resistance bands & your own bodyweight to strengthen, tone & sculpt both upper & lower body. Plenty of options offered, so that you can work at your own level.

YOGA

Yoga is a practice that connects the body, breath, and mind. It uses physical postures, breathing exercises, and meditation to improve overall health

ZUMBA

Zumba is a form of fitness class in which you burn off calories by dancing to different kinds of lively tunes, often Latin-American inspired such as salsa, merengue and samba, but also other types of modern music like hip hop and Bollywood
